About Product

Rev 360 LED Display is a unique 7ft tall cylindrical digital display that helps the brand attract eyeballs at high traffic locations such as Airports, Cinemas, Shopping Malls, Clubs & Hotels. The Rev 360 display utilizes cutting edge technology to present up to the minute information to a 360 degree rotating screen. The Rev 360 display is primarily designed to fit onto outdoor lamppost columns but can equally be mounted as free standing units. It is designed to display static or rotating images in various sizes to suit the promoter.

The Rev 360 is a multi-media display; integrating animation, video, poster and computer graphics in high definition (HD) quality for indoor & outdoor use. The Revolution 360 has a number of enclosure styles available to blend seamlessly into the end users environment.

Features:

- ◆ Indoor & outdoor
- ◆ 360° visibility
- ◆ For advertisers & community broadcaster
- ◆ Daylight viewable with brightness adjust
- ◆ Ultra brightness, High Contrast
- ◆ Split Screen Images capability
- ◆ IP65 weatherproof
- ◆ Temperature Controlled
- ◆ LEDs are maintenance-free and extremely long-lasting
